

## Powerline Work Notice

This postcard is to notify you, our customers, of the work that Rocky Mountain Power plans to do in the upcoming months. We plan on starting the work on 08/29/2017 and will be going through 12/31/2017. We will be doing work on our RAT22 line to improve reliability in your area. No outages are scheduled to take place at this time. We will work directly with and contact those customers affected by any scheduled outage. We appreciate your patience while this work is taking place. If you have any questions, please call our toll free number at 888-221-7070. The work order number for this project is 6321409.
